Flower of the Month - Lily of the Valley

The flower for the month of May is the lily of the valley. It is prized for its sweet fragrance. It's a common folk belief that the scent of this inedible flower in the spring air is the signal for nightingales to begin their seasonal singing and choosing of a mate. Legend has it that King Charles IX of France was given this flower on May 1, 1561. He reportedly then gave the gift of lilies of the valley to all the ladies of his court each year on May 1.

Birthstone of the Month - Emerald

The stunning green emerald is the birthstone for May. It is also the anniversary gemstone for the 20th year of marriage. This beautiful gemstone is primarily mined in the Middle East and South America. The ancient Romans associated emeralds with fertility and rebirth. They dedicated the stone to Venus, the goddess of love and beauty. In the Middle Ages, it was believed that emeralds held the power to foretell the future and cure epilepsy and fever. Today, it is often thought to symbolize wisdom, growth, patience, and spring.
